Education

Loyalist College, Toronto, ON - Ontario Graduate Certificate in Artificial Intelligence and Data Science

SRKR Engineering College, India - Bachelor of Technology in Information Technology

Courses: Data Analysis & Visualization, Machine Learning & Deep Learning, Natural Language Processing, Cloud Computing with Azure & Google Cloud, Database Systems, Statistics and Mathematics

Concentration: Applied Artificial Intelligence, Data Science & Analytics, Cloud-Based Machine Learning Systems

Experience

Quinte Financial Technologies — Data Analyst

Feb 2024 – Apr 2024

- Translated business requirements into applied analytics through SQL and ETL pipelines.
- Developed 2 interactive dashboards in Tableau, reducing reporting turnaround time by 30% & improving stakeholder access to insights.
- Translated 10+ business requirements into data solutions by collaborating with 2+ cross-functional stakeholders, increasing project delivery efficiency by 20%.
- Validated 2 data pipelines through quality checks & anomaly detection, reducing discrepancies and errors by 20%.

AlmaBetter — Data Analyst Intern

Feb 2023 – Jan 2024

- Mentored 200+ learners by resolving technical queries & raising learner satisfaction scores by 20%.
- Synthesized insights from machine learning experiments and communicated results through reports and presentations.
- Built and evaluated 5+ ML models using scikit-learn and TensorFlow, improving prediction accuracy and business insights by 15%.
- Led 2 A/B experiments on UI/UX designs, increasing user engagement by 25% and conversion rates by 18%.

Accenture — Application Development Associate

Oct 2021 – Feb 2023

- Delivered 3 enterprise projects by analyzing operational data using SQL and Excel, ensuring accurate service readiness and reporting.
- Coordinated with cross-functional and client teams to test service configurations in real time, contributing to a 15% improvement in issue resolution efficiency.
- Executed 10+ end-to-end service validation and testing cycles, documenting results and raising approvals in Jira, which improved deployment quality and reduced recurring defects by 25%.
- Produced daily operational reports supporting the Telefonica–Virgin Media O2 integration, improving coordination and decision-making by 15%.

Certifications

IBM Data Science Specialization — IBM (via Coursera) - [Certificate](#)

- Learned end-to-end data science workflows including Python, SQL, data analysis, visualization, and building machine learning models for business use cases.

Full Stack Data Science Program — AlmaBetter - [Certificate](#)

- Developed practical skills across data preprocessing, exploratory analysis, machine learning, model evaluation, and deployment through hands-on projects.

Skills

Technical Skills: Data Analysis, Data Cleaning & Preprocessing, Applied Machine Learning, Statistical Analysis, Natural Language Processing, Feature Engineering, Model Evaluation & Validation, ETL & Data Pipelines, A/B Testing & Experimentation, Data Quality Assurance, Model Interpretation & Reporting, Data Storytelling.

Software Knowledge: Python, SQL, Power BI, Tableau, MySQL, Microsoft SQL Server, scikit-learn, TensorFlow, Docker, Kubernetes

Soft Skills: Analytical Thinking, Problem Solving, Cross-Functional Collaboration, Communication Skills, Attention To Details, Stakeholder Management, Adaptability, Time Management, Critical Thinking, Continuous Learning Mindset.
